MEMORANDUM FOR: Director of Finance

25X1 FROM:

[REDACTED]  
Acting Director of Information Technology

SUBJECT: Request for the Installation of Three Terminals

REFERENCE: Memo for D/OIT fm D/OF, dtd 12 Feb 86,  
Same Subject (OIT-0124-86)

1. This is in response to your request for the installation of three Delta Data terminals. In an effort to support your requirement in a timely manner, OIT has placed the three terminals in the locations designated in your request. However, the lack of ports continue to be a problem and will not be resolved until after the installation of the new secure switch in March 1987.

2. In view of the fact that spare ports are not available, it will be necessary for the Office of Finance to review the usage of existing terminals. Attached are two reports which list the devices supporting OF and the usage of each device. Once the lines are designated by OF, a priority will be assigned to your request. Please provide [REDACTED] on secure [REDACTED] a list of available ports.

MEMORANDUM FOR: Director, Office of Information Technology

FROM: Allen R. Elkins  
Director of Finance

SUBJECT: Request for Additional Delta Data Terminals

*D/OIT - Do whatever we can for OF. Even if it means stealing ExD & Exec Net*

25X1 1. As you are aware, excellent progress has been made on the first two deliverables of the Automated Compensation and Information System (ACIS) development effort. A portion of the software for the Automated Retirement and Separation System (ARESS) is already in place and the balance is now in the final testing stages. The Electronic Time and Attendance System (ELECTAS) is also in final testing and is scheduled for implementation in May 1986.

2. In reviewing the Compensation Division hardware requirements for these deliverables, it has been determined a minimum of two Delta Data terminals are required to support ARESS and four to support the initial implementation of ELECTAS. Of our current allocation of three new terminals for Compensation Division, a total of two have been designated for ARESS support with the remaining one scheduled for ELECTAS. This will still leave us three terminals short to meet the minimum requirements for ELECTAS implementation. ELECTAS will provide tangible benefits for and improve service to the entire Agency, and I am sure you agree that its successful implementation is mandatory. Your assistance is needed in providing three additional terminal installations in Key Building.

3. It is requested that you approve the allocation of three additional Delta Data terminals to the Office of Finance to support the ARESS and ELECTAS operations.

*for* Allen R. Elkins
